RE: Kayu Brand Decking - Kayu Batu Decking Products

We used Kayu Decking Products on all the Penthouse suites at LaCaille Parke Place; multi tenant high rise condo on the Bow River in Calgary, Alberta.

It has been on the project for approximately three years and we are exceptionally satisfied with the look and feel of this rich exotic hardwood.

We believe it is a lot more inviting than any plastics, woods or other products available on the market and truly gives us the feel of a higher end product.

Best Regards,

Peter Livaditis
