

You are the proud owner of a Kayu Batu Deck.

In order to keep your deck looking great, it is ***imperative*** to periodically (once a year in the late Spring) clean it. Following these easy steps will keep it looking as new. We recommend Messmers Wood & Deck Cleaner & Messmers UV Plus for Hardwoods Finish, available at Kayu Canada Inc.

1. Sweep excess debris (dirt & leaves) off the deck. Wet the deck surface down with clean water.
2. Dissolve Messmers Wood & Deck Cleaner in warm water at the recommended strength.
3. After waiting several minutes for the product to dissolve and activate, apply with a mop.
Let the product sit on the deck surface for at least 20 minutes, making sure to keep the deck wet with more product if it begins to dry out.
4. If your deck is extremely dirty, scrub the deck boards going with the grain of the wood, with a stiff broom. Rinse thoroughly with clear water. Allow the deck to dry for 24 hours before applying the Messmer's UV Plus for Hardwoods.

We recommend Messmer's UV Plus for Hardwood Decks, also available at Kayu Canada Inc., as a premium natural wood finish to protect and beautify your Kayu Batu deck. Your deck should be finished no more than once a year. Application of the oil should be with a bristle brush or roller. One coat is sufficient for most applications. **Excess product not absorbed into your hardwood deck within 30-40 minutes must be back brushed with a dry brush removing any excess oil to prevent tackiness and surface sheen.**

For further information on maintaining your Kayu Batu deck please check out www.kayu.ca or call toll free 1-877-666-KAYU (5298)

PLEASE NOTE THAT ANY OIL SOAKED BRUSHES, ROLLERS OR RAGS CAN SPONTANEOUSLY COMBUST AND CATCH FIRE IF NOT DISPOSED OF PROPERLY. PLEASE SOAK IN WATER AFTER USE AND HANG TO DRY.

Enjoy the Natural Beauty!
